## (54) Title: INTERCONNECTION SUPPORT FOR PLATE-LIKE MICROCOMPONENTS

(57) Abstract

An interconnection support for plate-like micro-components (1) has a support rail (2) which is attached to a support plate (3). An insertion slot (4) for the support rail (2) accommodates an insertion edge (5) of a plate-like microcomponent (1). Like connections (10, 10a), which can be connected to associated connections (11) in an outside (1a) of the plate-like microcomponent (1), are provided in at least one side wall (9) of the insertion slot (4) of the support rail (2).
